

## System 4

1.

**Pre-inspection** - Identify carpet fibre, construction, history and soiling

2.

**Power Vacuum** - Remove all insoluble dust and hairs etc. Move furniture if applicable.

3.

**Stain Removal** - Attempt stain removal to identified areas with appropriate techniques.

4.

**Spray Treatment** - Self neutralising and encapsulating. Any soil not absorbed will crystallise.

5.

**Bonnet Absorption** - Absorb and warm carpet fibres to remove as much excess moisture as possible to speed drying.

6.

**Clean the edges** - Clean all edges and hard to reach areas

7.

**Move Furniture** - Place furniture on protective blocks or pads to prevent dye transfer.

8.

**Set pile** - Lay fibres flat to speed drying.

● Residential, Commercial & Tenants ● Stain & Soil Resisting Protection ● Leather Cleaning – Rug Cleaning ● All services, guaranteed and fully insured
